DYNAMIC PURCHASING SYSTEM

Dynamic Purchasing System Works & Consultancy Services

We have **3** completely electronic **Dynamic Purchasing Systems** that have been designed to deliver value for money and ease of access. The DPS offers an OJEU compliant procurement service for buyers to help meet the changing needs and expectations in procurement today.

For the buyer:

- The DPS offers great value for money - saves you time, money and resources
- The DPS is already in place, meaning it is quick to initiate a project
- The DPS avoids lengthy procurement timescales
- The DPS gives you access to a wide range of fully verified, approved and accredited consultants and contractors of varying sizes
- The DPS is fully audited - suppliers finances, insurances and H&S are monitored by bit
- The DPS helps you to deliver social value - opportunity to engage with local suppliers
- The DPS is simple to access and use - you can filter by different requirements and document templates are available for you to use
- The DPS is fully compliant with EU, UK procurement regulations and is OJEU compliant
- You will receive a streamlined end-to-end procurement service managed by bit

Dynamic Purchasing System Support & Management Services

As the DPS operator we will offer extensive support and management of the procurement process for the buyer. Offering you an online system that does exactly what you need it to.

- We will provide ongoing guidance and support in relation to the use of the DPS and conduct the competition process via the Council's preferred e-tendering portal
- We will provide relevant documents in relation to the DPS including the DPS Guidance Stage 1 and 2
- We will hold joint meet the buyer events to encourage and assist consultants or contractors to join the DPS to help you deliver significant economic and social benefits to both the local and wider community
- We will provide ready to go document templates to aid in obtaining tenders (Consultancy Call-off Instruction), the assessment of the tenders (Assessment Matrix), awarding tenders (successful and unsuccessful letters) and getting into contract (Consultancy Agreement)
- We will run and manage the complete tender process to ensure you achieve compliance, including creating the tenderbox, upload relevant documents as provided, forward all messages received from approved providers to you, upload clarification responses for all approved providers to view. Create and upload letters to the successful and unsuccessful approved provider. We will forward any requests for debriefs from approved providers
- We will provide you with access to the Council's e-tendering system to enable you to carry out the evaluation of any bids received
- We will observe any standstill period (if required)
- We will continually monitor the performance of suppliers on the DPS, carrying out routine checks on insurance, H&S and finance details. We will hold quarterly meetings to discuss both the performance and use of the DPS
- We will tailor our competitive management fee to suit your requirements
